

# Big Opportunities in Big Science.

## Postdoctoral Research Program

**A**t Lawrence Livermore National Laboratory, scientists and engineers with vision and imagination bring big ideas to life. To continue to provide world-class science and technology in the national interest, the Laboratory must continually renew its cutting-edge intellectual resources with the finest new scientific talent available. Livermore is an excellent place for new Ph.D.s to make a difference in meeting the science challenges of today and tomorrow.

If you are a recent Ph.D. and interested in broadening your education, training, and scientific research experience by working at one of the leading multidisciplinary research and development laboratories in the U.S. and the world, you are a candidate for one of Lawrence Livermore's Postdoctoral Programs.

For More Information: Turn this announcement over to learn more about Lawrence Livermore's Postdoctoral Program. You can also get details by visiting the program's Web site at [www.llnl.gov/postdoc](http://www.llnl.gov/postdoc).

To Apply: Go to the Laboratory's jobs Web page at [www.llnl.gov/jobs](http://www.llnl.gov/jobs) and learn how to submit your resume.

# Big Opportunities for Postdoctoral Experience

Lawrence Livermore National Laboratory provides recent Ph.D.s with excellent opportunities to broaden their education, continue their training, and participate in leading-edge scientific research.

Postdoctoral appointments at Livermore are of two kinds. Those offered through the Laboratory-wide **Postdoctoral Program** place as many as 150 postdocs in assignment across the Laboratory in a rich variety of programs. Currently, there are as many as 50 openings in the program. These appointments are available year round.

The Laboratory also has openings for a limited number of postdocs in the prestigious **Postdoctoral Fellowship Program** sponsored by the deputy director for Science and Technology. Candidates must have a track record indicating that they will become exceptionally outstanding researchers. The deadline for applying to this program is November 1.

## Who's Eligible?

Anyone who has earned a Ph.D. within the last five years in a discipline relevant to the science and technology done at Lawrence Livermore is eligible for one of Livermore's postdoctoral programs. Appointments are awarded for up to three years.

## Research Areas of primary interest

- Astronomy and Astrophysics
- Atmospheric Science
- Automation and Robotics
- Biology
- Chemistry
- Computing
- Energy
- Engineering
- Environmental Science
- Fusion
- Geology and Geophysics
- Lasers and Optics
- Materials Science
- Medical Technologies
- Microtechnology
- National Security
- Nonproliferation, Counterproliferation, and Arms Control
- Physics
- Sensors and Instrumentation
- Weapons and Defense Technology

## About Lawrence Livermore

Lawrence Livermore National Laboratory is a world-renowned multidisciplinary research and development center. It is one of the Department of Energy/National Nuclear Security Administration national laboratories and is managed by the University of California. Livermore's primary mission is to help ensure national security. Its state-of-the-art research facilities and capabilities are dedicated to applying science and technology in the national interest. The Laboratory is located approximately 50 miles east of San Francisco, in the scenic Livermore Valley.

## How to Apply

To submit your resume to Livermore's Postdoctoral Program, go to the Laboratory's jobs Web page at [www.llnl.gov/jobs](http://www.llnl.gov/jobs).

For more information about postdoctoral opportunities at Lawrence Livermore, including the application and selection processes, visit the Postdoctoral Program's Web site at [www.llnl.gov/postdoc](http://www.llnl.gov/postdoc).

Lawrence Livermore National Laboratory is proud to be an Equal Opportunity Employer with a commitment to workforce diversity.

This work was performed under the auspices of the U.S. Department of Energy by the University of California, Lawrence Livermore National Laboratory under contract No. W-7405-Eng-48. Lawrence Livermore National Laboratory is managed by the University of California for the U.S. Department of Energy's National Nuclear Security Administration. UCRL-MI-144327
